

SONANCE LANDSCAPE SERIES

LS10SUB IN-GROUND SUBWOOFER

Product Family Overview

Until now, outdoor subwoofers have been lacking in their musical prowess. The LS10SUB Subwoofer delivers powerful deep bass frequencies that are the foundation of the SLS's remarkable performance. The sealed (HDPE) enclosure is installed below the ground, with only its attractive dark brown

powdercoated canopy visible. Difficult site conditions are no problem, the LS10SUB can easily be installed at varying depths below the ground surface. This unheard of versatility, coupled with unmatched front-firing bandpass performance, puts the LS10SUB in-ground subwoofer in a class unto itself.

Features and Benefits

- Part of a scalable system that delivers perfectly even coverage and unequalled sonic performance throughout any sized space
- Below-ground subwoofer provides superior bass while seamlessly blending into the landscape environment
- Robust construction designed to handle the most extreme conditions
- Tuned port / deep, powerful, tight bass
- 10" woofer
- 100 Watt transformer
- Front-firing band-pass design
- 1/2" thick (HDPE) non-corrosive sealed enclosure
- 70 Volt systems allow expandable landscape designs

Dimensions

LS10SUB

Overall

Length: 26 1/4" (667mm)
