

A high-angle, black and white photograph of a modern, white, angular music system. The system consists of a central console and two side speakers. On the central console, a vinyl record is placed on a turntable. To the left, a small black subwoofer sits on the floor. The background is a plain, light-colored wall. The overall aesthetic is minimalist and contemporary.

VSSL™

A.1 HOME

SET YOUR MUSIC FREE™

FEATURES:

1: Freedom - Listen with an iOS, Android, or PC device with any music app in the world like Spotify, Pandora, Apple Music, or any other. Access all of your favorite features of your native music app and play directly on your music system. New music services are available immediately, no waiting for system updates.

2: Native Streaming™ - Select music in your favorite music app and then use Airplay, Chromecast built-in, Spotify Connect, or DLNA to listen to any zone in your house. No third party control apps or added complications needed.

3: Unmatched Simplicity - From install to streaming music, the A.1 Home is in a class of its own. Use the VSSL app on iOS and Android to set up and configure settings and added room control.

4: Easy Multiroom - With the A.1 Home you can use the native multi room listening features of Airplay2 or Google Chromecast. For local inputs, you can share these with other VSSL zones using the VSSL app

5: Performance - The A.1 Home is made for the music enthusiast with the highest grade components available. With high power efficient circuitry and 50 watts per channel, VSSL makes your music sound good.

6: Stability - Designed with extreme detail for reliability speaker outputs are 8 and 4 ohm stable, with auto protection circuitry to keep your music playing.
